

A place to prepare for a lifetime of learning and success

Charles R. Drew Charter School – the city of Atlanta’s first public charter school – offers a curriculum, enrichment and **Before and After School programs** that emphasize high academic achievement and character development for students in pre-kindergarten to eighth grade.

Technology is integrated throughout a curriculum that concentrates on excellence in reading, math, science and writing. Drew balances its focus on fundamental skills by including two enrichment classes every day ranging from visual and performing arts to physical education and Spanish.
