

January 29, 2021

Dear Cox Pre-K Families:

As we gear up for the 2021-2022 enrollment season, I wanted to make you aware of the process and policies for enrolling your student in kindergarten at Drew.

All potential kindergarten students (including current Cox Pre-K students) must submit a lottery application during the application window (February 1, 2021 - April 30, 2021). The online application will be available on Drew's website beginning February 1, 2021, and all qualifying applications will be included in a lottery held on May 6, 2021.

Please note that Drew is NOT participating in Atlanta Public Schools' "Enroll APS Charter" process for the 2021-2022 school year. All applications for Drew's lottery must be submitted through Drew's online process. When you click the application link, you will be prompted to log into the Drew SchoolMint account you created when submitting last year's lottery application. Once logged in, you will click "Edit New Student Application" next to your student's name. Make sure to select the application for the 2021-2022 school year when prompted.

We are hosting a virtual Prospective Parent Night for current Cox Pre-K families on March 11, 2021, at 5 p.m. via Zoom (link provided below as well as at www.drewcharterschool.org/enrollment). While attendance is not required, this is a great opportunity for you to learn more about Drew's kindergarten program, meet some of the staff, and better understand the lottery/enrollment process. The session will be recorded if you are unable to attend the live event.
